As per the formula specified under MPERC Regulations cited under reference, the FPPAS for the month of January 2024 has been calculated as 2.06 %. However, for the month of Oct, Nov and Dec, 2023 the FPPAS calculated was negative in value and as clarified by the MPERC that the advantage accruing to the licensee on account of reduced cost of Fuel/ power purchase has to be passed on to the consumers. Accordingly, the FPPAS @ 2.06% for the month of Jan-24 has been adjusted against the negative FPPAS of the previous months and therefore the zero FPPAS is to be billed for the Jan-24.

After adjusting the positive FPPAS for Jan-24 the resultant cumulative negative FPPAS would be (-) 8.75% and the same will be adjusted against the positive FPPAS in the coming months.

Therefore, zero percent FPPAS is to be billed to the consumers on energy charge for one month commencing 24th January 2024 in accordance with the Regulations and as decided by the competent authority. A detailed calculation sheet is attached herein for your
